Trans. of [Akademiya Nauk SSSR]. Comptes Rendus
(Doklady) de l'Academie des Sciences de l'U. R. S. S.,
1945, v. 47, p. 348-350.

DESCRIPTORS: *Hydrocarbons, *Polymerization,
Butadienes, Colloids.

A series of polymerization reactions were carried out
with 1, 3-butadiene in the presence of various emulsi-
fying agents and diazoaminobenzene as a catalyst. The
rate of polymerization increased considerably when the
concentration of the emulsifying agent increased, even
within the concentration limits within which the surface
activity of the latter remains practically constant. The
